

Volleyball training net

PY200

The net is constructed of high tenacity polypropylene knotless knitting (Raschel system). The net thread thickness net is 3 mm with a 100 mm width in square configuration.

The total dimensions of the net are 9,500 mm x 1,000 mm.

The net has a PVC band on top and black polyester trim on the sides and at the bottom.

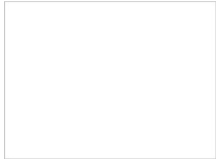

The following accessories are included:

- 3 x 5 mm plastic laminated cable (15 meter long).
- 1 grommet at each end of the net.
- 1 black tension string at each end.
