

Set of additional counterweights for MONDOATHENS, EUROLEAGUE, MONDOCUP and MONDOCLUB basketball units

PK260 - PK261 - PK262 - CP60 - PK150

Set of counterweights for MONDOATHENS, EUROLEAGUE, MONDOCUP and MONDOCLUB basketball units. The purpose of these counterweights is to stabilize the basketball units however, while these counterweights are being used, it is mandatory to fix the basketball unit to the ground to ensure perfect stability and prevent risk of rollover during play. The counterweights have a parallelepiped shape of square cross section of 100 mm each side and 580 mm in length. Each counterweight has two grips for easy handling and weighs 42 kg. The total number of counterweights included in the set depends upon the type of basketball unit model to be used with and its arm projection length. The product is painted with polyester powder paint, which is applied after a degreasing treatment using a pressurized phosphate bath and cured in an oven at 200°C.
